ARWeb Search Help

Basic Search Tips:

- Select the particular site for which you are seeking Administrative Record (AR) information by using the drop down menu on the Site Name tab.

- To narrow your search, first select the state in which you would like to seek AR information by selecting one of the five EPA Region 3 states using the drop down menu on the State tab. After selecting a state, the Site Name field will contain only the names of Superfund sites within that state.

- After selecting a site, an AR Type field will be produced. This drop down menu lists specific AR collections from a site. It is an optional field. See the "Site Help" screen for more information on the different types of ARs.

- Clicking Add Search Conditions will direct you to the Advanced Search page. This page will allow you to narrow your search criteria for a more efficient search.

- Clicking the Search button will provide you with three options before listing the search results - 1) Revise Search Conditions allows you to narrow/revise the search criteria, 2) Search Results will produce a list of documents pertaining to your search criteria, and 3) Advanced Search will direct you to the Advanced Search page.

- There are a number of options once your desired documents have been retrieved. Clicking on "Title/Subject" will allow you to view the actual document using Adobe Acrobat Reader. Please note that Adobe Acrobat Reader software must be installed on the computer you are using in order to view documents.

- Clicking "Documents Details" will display the chosen document's Meta Data. This includes additional information such as, Author/Addressee, Potentially Responsible Parties (PRP), Site ID number, Operable Units for the site, and Phase Activity, which are not displayed on the search results page.

- Comprehensive instructions for this search page are located by clicking "Page Help" at any point.

Advanced Search Tips:

- The Advanced Search function allows ARWeb users to further narrow their search criteria by offering additional fields in which to enter AR information.

- Comprehensive instructions for this search page are located by clicking "Page Help" at any point.

Full Text Search:

- The Full Text Search function allows ARWeb users to search documents for a key word.

- Comprehensive instructions for this search page are located by clicking "Page Help" at any point.

SEMS-Pub Search Help

- Select Region "03."
- Select Collection Type "Administrative Record."
- Select State "Pennsylvania."
- Select Site "Industrial Lane."
- Click the Submit button.
- The Superfund Records Collections page lists all of the available AR Collections for the site.
- Click on the Collection Description "Remedial - OU1 & OU2."
- You arrive at the page with the list of documents. At the top of the page is a link to the Index of Documents - the same document you have in paper format. The balance of documents appear on the Index of Documents and make up the Administrative Record. The default sort is reverse chronological order with the most recently dated document at the top preceded by any documents which may be "Undated."
- Use the Index to guide you through the document list.
- You can resort the documents using the up or down triangles at the top of any column.

INDUSTRIAL LANE

OU1 & OU2 ADMINISTRATIVE RECORD FILE * **

INDEX OF DOCUMENTS
